The Waterfront School

95 4th Street, Buffalo, NY 14202

This building is accessible to disabled persons

The Erie Canal Harbor Development Corporation (ECHDC), in cooperation with the City of Buffalo and the New York State Department of Transportation (NYSDOT), is conducting a study for a bridge connection project located in the City of Buffalo, NY. ECHDC, the City and NYSDOT are advancing this project by developing an Environmental Impact Statement (EIS). The Buffalo Harbor Bridge is intended to establish a convenient, multi-modal connection point between Buffalo's inner and outer harbor areas. Community input is needed to define the purpose and needs, as well as the bridge alternatives being examined in the draft EIS. Those unable to attend the public scoping meeting may also submit written comments to Erie Canal Harbor Development Corporation, Attn: BHB Project, 95 Perry Street, Suite 500, Buffalo, NY 14203, by January 11, 2010.

The draft scoping report can be viewed at:
